Katya Sander

A LANDSCAPE OF UNKNOWN FACTS

TIME: 11 AM – 8 PM

ADMISSION FREE OF CHARGE

Katya Sander's *A Landscape of Known Facts* is a newly commissioned artwork that will completely transform the gallery of Project Arts Centre. Sander's landscape is projected like a lighthouse, a beam that scans the circular room in a slow, continuous, 360degree evolution. Influenced by the early development of cinematic special effects, *A Landscape of Known Facts* brings to life the history of the panoramic spectacle, while also layering the projected image with iconographic matte painting and textual metaphors. Inside the panorama we eavesdrop on conversations – people who travel, see, purchase tickets, behold spectacles, and consume images.
